

FINISHED PRODUCT SAFETY DATA SHEET (SDS)

1. Product Description	
Product Name	Safflower Oil
Product Number	All Safflower Oil items
Brand	All
Supplier	Ventura Foods 40 Pointe Drive Brea, CA 92821 800-421-6257
Emergency Phone Number	Chemtrec (800) 424-9300
Use of substance	Food ingredient
Date	April 15, 2020

2. HAZARD IDENTIFICATION	
Description	Appearance: Clear very light yellow Physical State: Liquid Odor: Slight Vegetable oil
Handling	If smoking occurs from oil usage, reduce or remove from heat. Spontaneous combustion (fire) may result from oil soaked materials such as rags, steel wool, paper and clothing. Place soaked materials in a sealed, metal container to prevent this. If smoking occurs from oil usage, reduce or remove from heat. This product is NOT classified as hazardous according to CFR 1910, amended to conform to the United Nations' Globally Harmonized System of Classification and Labeling of Chemicals (OSHA / GHS); SOR/88-66, the Canadian Controlled Products Regulations (CPR); and/or NOM-002-SCT2003 (Mexico). However, vegetable oil (in mist form) is known to be listed as an OSHA 29 CFR 1910.1000 Air Contaminant. Occupational exposure limits are subsequently provided in section 8 of this SDS.
OSHA Hazards	No known OSHA hazards. Not a dangerous substance according to GHS.
HMIS Classification	Health: 0 Flammability: 1 Physical Hazard: 0
NFPA Rating	Health: 0 Fire: 1 Reactivity: 0

Potential Health Effects	Inhalation: May be harmful if inhaled. May cause respiratory tract
	irritation.
	Skin: May be harmful if absorbed through skin. May cause skin irritation.
	Eyes: May cause eye irritation.
	Ingestion: Food ingredient. Not a hazardous substance.

3. COMPOSITION/INFORMATION ON INGREDIENTS	
Synonyms	Safflower Oil @100% CAS#8001-23-8
GRAS status	All ingredients are FDA GRAS.
Hazard status	No food ingredients are hazardous according to OSHA criteria.

4. FIRST AID MEASURES	
Inhalation	Move to fresh air in case of accidental inhalation of vapors or decomposition products.
Skin contact	Wash off with soap and plenty of water.
Eye contact	Flush eyes with water of special eyewash solution.
If swallowed	Ingestion of edible vegetable oil is nontoxic and should pass through the system.

5. FIREFIGHTING MEASURES	
Conditions of flammability	Materials may pose fire hazard.
Suitable extinguishing media	Alcohol resistant foam, dry chemical or carbon dioxide. Use extinguishing measures that are appropriate to local circumstances and the surrounding area.
Special protective equipment for firefighters	Wear self-contained breathing apparatus for firefighting if necessary.
Specific hazards arising from the Chemical Oil	Risk of ignition. Rags and other materials containing this product may heat up and spontaneously ignite if exposed to air. Store wiping rags and similar materials in metal cans with tightly fitting lids. Cool closed containers exposed to fire with water spray. Avoid hot oil; if smoking occurs during application reduce or remove from heat.
Hazardous combustion products	Hazardous decomposition products formed under fire conditions. Nature of decomposition products not known.
NFPA Health	0
NFPA Stability and Reactivity	0
NFPA Flammability	1
NFPA Physical Hazard	0

6. ACCIDENTAL RELEASE MEASURES	
Personal Protection	Avoid breathing vapors, mist or gas. Recommend exhaust fans over grills and deep frying.

Environmental Precautions	Prevent further leakage or spillage. Do not allow product to reach soil, sewage or any water sources. Dispose per local, state, and federal regulations.
Methods and materials for containment and cleaning up	Keep in suitable, closed containers for disposal. Dispose of rags used in clean up. Remember oil soaked rags or partially cleaned materials may spontaneously combust.

7. HANDLING AND STORAGE	
Conditions for safe storage	Ensure adequate dry, well ventilated storage area between 50 – 120F. Clean up any spillage to avoid accidents immediately.
Combustible conditions	Keep away from open flames, hot surfaces and sources of ignition.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION	
Occupational exposure limit values	Contains no substances with occupational exposure limited values.
PPE:	
Respiratory protection	Respiratory protection not required. For nuisance exposures use type OV/AG or type ABEK respiratory cartridges.
Hand protection	Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.
Eye protection	Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (USA) and EN 166 (EU). Oil in eye must be flushed with water or special first aid eye wash continuously.
Skin and Body protection	Impervious clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. Deep frying or grill operator must use nonabsorbent apron when dealing with hot oil.
Hygiene measures	Good industrial hygiene practices.

9. PHYSICAL AND CHEMICAL PROPERTIES	
Form	Clear, liquid
Color	Very light yellow
рН	NA
Specific gravity	@0.910 - 0.924 (H20 = 1)
Melt point/freezing point	
Smoke point	>450F
Flash point	>625F
Ignition temperature	>640F
Auto-ignition	Not auto flammable
Lower explosion limit	No data available
Upper explosion limit	No data available
Vapor pressure	<.1mm Hg at 300C

Boiling point	No data available
Water solubility	Insoluble
Partition coefficient	No data available
Relative vapor	No data available
Density	No data available
Odor/Flavor	No data available
Odor threshold	No data available
Evaporation rate	<1 (butyl acetate = 1.0)

10. STABILITY AND REACTIVITY	
Chemical stability	Stable under recommended storage conditions (<120F). Cooking and frying temperature >440F, oil will smoke. Reduce or remove from heat.
Possibility of hazardous reaction	None known.
Conditions to avoid	None known.
Materials to avoid	Strong oxidizing agents.
Hazardous decomposition products	Formed under fire conditions — nature of decomposition not known. Other decomposition products — no data available Rags used for clean-up (clean or contaminated) can combust if conditions are adequate. Keep in safe place or dispose of rags after usage in an enclosed metal container.

11. TOXICOLOGICAL INFORMATION		
Acute toxicity	Oral: LD50 no data available. Inhalation: LC50 no data available. Dermal: LD50 no data available.	
Skin corrosion	No data available.	
Serious eye damage	No data available.	
Respiratory or skin sensitization	No data available.	
Carcinogenicity IARC	No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible, or confirmed carcinogenic by IARC.	
Carcinogenicity ACGHI	No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible, or confirmed carcinogenic by ACGIH.	
Carcinogenicity NTP	No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible, or confirmed carcinogenic by NTP.	
Carcinogenicity OSHA	No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible, or confirmed carcinogenic by OSHA.	
Reproductive toxicity	No data available.	
Teratogenicity	No data available.	

Specific target organ toxicity	No data available.
Aspiration hazard	No data available.
Potential health effects	Inhalation: May be harmful if inhaled. Ingestion: The material is a non hazardous food ingredient. Skin: May be harmful if absorbed through skin. Eyes: May cause eye irritation.
Signs and symptoms of exposure	No data available.
Synergistic effects	No data available.
Additional information	No data available.

12. Ecological Information	
Toxicity	Contains no substances known to be hazardous to the environment. Contains no substances known to be not degradable in waste treatment facilities.
Persistence and degradability	Readily biodegradable.
Bio accumulative potential	Not applicable.
Mobility	Oil is insoluble in water and will float in water.
PBT and vPVB assessment	No data available.
Other adverse effects	No data available.

13. DISPOSAL CONSIDERATIONS		
Recycle	Whenever possible, as rules and regulations allow, please recycle or manage materials to minimize waste.	
Waste disposal methods	Oil soaked materials may spontaneously combust and should be properly managed to avoid ignition and heat sources or oxygen rich environments. Collect and store soaked materials in closed, metal containers.	
Contaminated packaging	Containers should be decontaminated and taken for local recycling, recovery or waste disposal facility. Follow local, state and federal guidelines.	

14. TRANSPORT INFORMATION	
DOT (US), Canada (TDG), Mexico (MEX)	Not regulated; Not dangerous goods.
IMDG	Not regulated; Not dangerous goods.
ICAO	Not regulated; Not dangerous goods.
IATA	Not regulated; Not dangerous goods.

15. REGULATORY INFORMATION

International Inventories: The components of the product are reported in the following inventories:

	No	No	No	No	No	No		
Safflower								

Legend:

TSCA	Toxic Substances Control Act Section 8(b) Inventory

NZIoC	New Zealand Inventory of Chemicals (New Zealand)

USA	OSHA Hazards
	No known OSHA hazards
	SARA 302 Components
	SARA 302: No chemicals in this material are subject to the
	reporting requirements of SARA Title III, Section 302.
	SARA 313 Components

	SARA 313: This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313. SARA 311/312 Hazards No SARA Hazards Massachusetts Right To Know Components No components are subject to the Massachusetts Right to Know Act. Pennsylvania & New Jersey Right To Know Components Soybean oil extractives and their physically modified derivatives. Consists primarily of glycerides of the fatty acids linoleic, CAS-No. 8001-22-7 Revision Date 1989-08-11 Clean Air Act, Section 112 Hazardous Air pollutants (HAPs) (see 40 CFR 61)Product is not known to contain HAPS. California Prop. 65 Components This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other Reproductive harm.
Canada	Domestic transport regulations (Canada) WHMIS Product Classification Not a WHMIS controlled product. 15. REGULATORY INFORMATION WHMIS Ingredient Disclosure List IDL No known component is listed on the WHMIS ingredients disclosure list. (NPRI) Canadian National Pollutant Release Inventory No
Mexico	known component is listed on NPRI. This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the SDS contains all the information required by the CPR. Mexico - Grade Slight risk, Grade 1

16. OTHER INFORMATION

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification either expressed or implied. The information is related only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

The information in this SDS was obtained from current and reliable sources. However, the data is provided without any warranty, express or implied, regarding its correctness or accuracy. Since the conditions of use handling, storage and

disposal of this product are beyond our control; it is the user's responsibility both to determine safe conditions for use of this product and to assume liability for loss, injury, damage, or exposure due to improper use of this product. Key for Abbreviations
